# FOUNDER'S NOTE

---

March 2020 changed our world in unimaginable ways. At SAC, 2020-23 was a period of resilience, empathy, introspection and reinvention. Like they say, it takes a churn for the nectar to emerge.

Through 20-21, we were able to support our beneficiary families through loss of life and livelihood, thanks to the unconditional support of so many donors and partners. Our programs swiftly moved online, with volunteers and students willingly adapting to the new landscape.

2021-22 saw a leadership change with Gauri Gupta coming onboard as co-founder trustee and Avani Dalal stepping down due to personal reasons. We took time to review our purpose and restructure our programs and spaces.

Our belief in the impact of quality early education saw the launch of our preschool "Anviksha" in April 21 and we ended 2023 with over 100 children enrolled in the program. We aim to scale this program in collaboration with the BMC in coming years.

Look forward to your support and encouragement as always.

# SUSTAINABLE DEVELOPMENT GOALS

## quality education for social impact

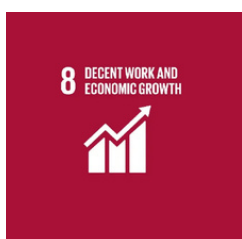

### GOOD HEALTH & WELL BEING

Education encourages the children to lead healthy lives, understand the importance of hygiene and sanitation. This could also help in comprehending the knowledge to prevent disease. Higher levels of education among girl-children/ mothers improves children's nutrition, and reduces child deaths, maternal mortality and HIV.

### GENDER EQUALITY

The education of girl-children impacts generations. We can prevent child marriage, reduce by the number of women dying in childbirth and halve the number of children dying under the age of five, just by educating the girls.

### DECENT WORK & ECONOMIC GROWTH

An increase in the average educational attainment of a country by 1 year increases annual per capita GDP growth 2-2.5%. Less than 5% of India's workforce has formal skills training, and 122 million new workers will be added by 2030. Quality education can help provide better career options.

### REDUCED INEQUALITIES

Education facilitates the structural transformation of the economy and enables educated workers to transition into the non-agricultural sector. Literacy rate in India went up by 9.2% in the past decade and income inequality for India fell from 36.8% in 2010 to 33.6% in 2015.
